

AURA PLATFORM LLC

Seed Investment Round
March 2026

Overview

Aura Platform LLC is opening a seed investment round to support the continued development and stabilization of the Aura platform.

Aura is being built as infrastructure for responsible digital discourse — a platform where identity, continuity of conversation, and public accountability are preserved.

The system is designed to support communication between individuals, institutions, researchers, and the public in a structured and durable way.

Capital raise and equity

Item	Detail
Target capital raise	\$1,000,000 USD
Total equity available	20% – 30%

Valuation range

Item	Estimate
Estimated pre-money valuation	\$2.3M – \$4M
Estimated post-money valuation	\$3.3M – \$5M

Use of funds

- Platform Development — feature completion, performance improvements, and security.
- Infrastructure Scaling — backend infrastructure, storage, and stability.
- Moderation and Governance Systems — centralized tools aligned with identity-bound communication.
- Institutional Outreach — relationships with research institutions, civic organizations, and professional communities.
- Operational Runway — operational stability during the early development phase.

Founder structure

Aura Platform LLC is currently founder-led.

- Founder: Muhammad Sakhawat
- Responsible for platform vision, product architecture, governance framework, and institutional partnerships.

Long-term objective

Aura aims to establish a durable digital environment where communication is identity-bound, historically preserved, and institutionally accountable. The platform is designed as long-term civic infrastructure rather than engagement-driven social media.

Investor participation

Interested investors may contact Aura Platform LLC to discuss participation in this seed round. Further documentation and technical materials are available through the Investor Hub.
